Therefore, these best books for NEET 2021 are the best source of revising the syllabus of Physics, Chemistry and Biology. Check the NEET preparation books 2021 recommended in this article along with the syllabus. NEET UG 2021 HighlightsExam Name: National Eligibility cum Entrance Test (NEET)Conducting Body: National Testing Agency (NTA)Mode of Exam: OfflineSubjects: Physics, Chemistry, and BiologyTime Limit: 3 hoursTotal Number of Questions: 180Marks per question: 4 marksMaximum Marks: 720 marksNegative Marking: - 1 mark for the wrong answer; 0 for unattempted answersCourses Offered: MBBS, BDS, and AYUSH coursesAlso Read:-Which Book is Best for NEET 2021?Aspirants preparing for NEET 2021 must keep in mind that NCERT books of Class 11 and 12 should be considered as the bible for each section. NCERT books will clear the basic concepts for each section. AIIMS MBBS AIR 1 Bhavik Bansal, who also bagged AIR 2 in NEET previous year said "Medical candidates should consider NCERT as the Bhagvat Gita as it has the basics of all syllabus." He further added, "I found most of the students focusing on 10% of the questions which will be asked out of the syllabus. However, if you will go with the 90% questions asked from NCERT concepts, there will be no one stopping you to get admission in the best government MBBS/BDS colleges of India." Apart from the NCERT books, the sources provided here will help candidates in solving the multiple-choice questions. The physics section being the toughest of all the sections as stated by the experts and toppers, requires extensive knowledge about each and every topic. The section comprises 45 questions which carry 180 marks wherein mostly questions from Electrostatics, Mechanics and Electronics dominate. The numerical based questions in NCERT Physics book will help the candidates in solving numerical during the exam. Concepts of Physics by H.C. Verma should also be in the list of best books for NEET as it provides solved and unsolved problems for practice which also serves as the sample paper for NEET preparation Physics. DC Pandey, on the other hand, prepares aspirants for objective questions. The remaining books that we have added to the list of NEET best books are also helpful to clear your concepts. NCERT Physics Class XI & Class XIIConcepts of Physics by H. C. VermaDC Pandey Physics for NEETFundamentals of Physics by Halliday, Resnick and WalkerFundamental Physics by PradeepProblems in General Physics by IE IrodovAlso read - How to study Physics for NEET 2021? Best Books for NEET 2021 – Chemistry Chemistry includes 45 questions which carry 180 marks wherein the aspirants will get three sections- Organic, Inorganic and Physical. As per the previous year trends, Physical and Organic section carries more weightage so we have included more books for these sections in the list of NEET best books. The physical section carries numerical based question, therefore, the books added will assist in practising and solving questions. The inorganic section is the easiest section when compared with the other two, it consists of memory-based questions. J D Lee includes multiple-choice questions which are really good for students preparing for NEET Chemistry. The organic section needs practice and revision as it depends on the interlinking of knowledge. The best books for NEET 2021 added here for the organic section will help aspirants in understanding the concepts lucidly. NCERT Chemistry textbooks for Class XI and XIIPhysical Chemistry by OP TandonABC of Chemistry for Classes 11 and 12 by ModernConcise Inorganic Chemistry by JD LeeDinesh Chemistry GuidePractise books by VK Jaiswal (Inorganic), MS Chauhan (Organic) and N Awasthi (Physical)Also read - How to study Chemistry for NEET 2021? Best Books for NEET 2021 for Biology Biology section comprises of 90 questions which carry 360 marks and it goes without saying that candidates should pay more attention to this section since it carries more weightage. In the list of NEET 2021 best books for Biology, we have included books which will help in retaining the concepts lucidly. NCERT Chemistry textbooks for Class XI and XIIPhysical Chemistry by OP TandonABC of Chemistry for Classes 11 and 12 by ModernConcise Inorganic Chemistry by JD LeeDinesh Chemistry GuidePractise books by VK Jaiswal (Inorganic), MS Chauhan (Organic) and N Awasthi (Physical)Also read - How to study Chemistry for NEET 2021? Best Books for NEET 2021 for Biology Biology section comprises of 90 questions which carry 360 marks. The aspirants can check here the list of best books for NEET Biology preparation 2021. NCERT Biology Class XI and Class XII textbooksBiology Vol 1 and Vol 2 by TruemanObjective Biology by DineshObjective Botany by AnsariPradeep Guide on BiologyGR Bathia publications for BiologyAlso read - How to study Biology for NEET 2021? NEET 2021 SyllabusThe medical aspirants can check here the syllabus of NEET 2021 which is likely to remain the same. It includes topics from each subject. The syllabus is prepared by CBSE, NCERT and COBSE taking into consideration the syllabi of all the States. It will help candidates to prepare for NEET thoroughly. NEET Syllabus 2021 for Physics NEET 2021 Syllabus for Chemistry NEET Syllabus 2021 for Biology – Previous 1 2 3 ... 32 Next – Visit the help section or contact us Get answers from students and experts Ask MTG question banks are indeed good. But more than this I think arihants text books are better. Yes, MTG is certainly good source of short notes (which will save your time while revising) as well as questions. Keep following it. All the best to you! Yes. The most recommended Mtg books I think are MTG monthly PCB magazines (very high yield) NEET guide Objective Ncert at your fingers. Assertion and reason book. (must for those aiming at AIMS) From my side the answer is a big yes. Specially for biology and chemistry I would say. As MTG publications focuses on problems based on NCERT books so it will be best to use them. And you can use their special assertion and reason based books for Aims. Yah... undoubtedly mtg books the best companion for Neet preparation. They are the best complements of NCERT. Practise exercises from mtg books after thoroughly going through the chapters of NCERT. The concept maps in mtg are really helpful in retaining formulae in mind plus the numerous exercises, the monthly practice papers, the NEET essential portion and all practice papers are really helpful. To be honest I am not brandishing mtg through this answer, rather telling out my own experience. From 11th class onwards I started preparing for NEET without going to any coaching institutions. The only thing I did was to read and practise NCERT as well as mtg monthly magazines (physics for you, chemistry today, biology today). Month before NEET, mtg's NEET explorer containing 20 previous year's question and practice papers is of great help to NEET aspirants. And yes, unless and otherwise you clear your concepts of NCERT, mtg can't help you. All the best. Give your best. Yes mtg publication is a good book, although I have not personally read the book but many of my friends did. But do ncert too as it is the most important. I hope it helps All the very best Hello Namera, NCERT books are the best for the preparation for National entrance exam test (NEET UG). You can also go through the other books which are also useful For biology 1) Trueman's Biology 2) Objective Biology by Dinesh 3) Pradeep Publication's Biology 4) NCERT Part one and two For physics 1) H.C verma - Concepts of Physics 2) NCERT part one and two 3) D C Pandey Objective Physics 4) Fundamentals of Physics- Halliday, Resnick and walker For Chemistry 1) NCERT BOOKS 2) O.P. Tendon- Physical Chemistry 3) Morrison and Boyd- Organic Chemistry 4) Dinesh Chemistry You would also have to improvise on your general knowledge, which you can by subscribing to magazines or newspapers. PCB magazine is a good subscription and helpful too. I would advice you to not buy all the books but to choose one and keep practicing and revising from it. Do several multiple choice questions. NEET has negative marking. It has 180 questions, and you are given +4 for the right answer and -1 for the wrong answer. You have to decide wisely which question to answer and which question to leave, according to the probability if you can answer 6 right questions for every 10, then you need not worry about the rest of the fur answers and leave them. Donot answer all the questions and get negative markings. Goodluck Namera. Hope this helps. Get answers from students and experts Ask Link CopiedThanks! Your report is submitted, the author will be informed about it Book Name Complete NEET Guide Biology Author MTG Editorial Board Brand MTG Learning Media Language English Edition 2018-19 ISBN 9789387949157 Number of Pages 700 Product Code 9789387949157 Minimum Order Quantity 1 Unit Complete NEET Guide chapter-wise, topic-wise Biology is a complete book to prepare you well for the NEET Exam.
